

UT Synergy™

Natural support for healthy urinary tract function*

UT Synergy™ is a blend of nutrients, botanicals, and nutraceuticals designed to help maintain optimal urinary tract function.* This comprehensive formula helps support a healthy inflammatory response, healthy urinary tissues, and the body's natural defense against bacteria in the urinary tract.*

Highlights

- **Hibiscus Extract:** from the hibiscus species, *Hibiscus sabdariffa*, contains high concentrations of substances that help support urinary tract health, such as organic acids and polyphenols, especially flavonoids and proanthocyanidins.* It may help promote healthy microbial balance in the urinary tract and may help keep bacteria from adhering to urinary tract walls.*
- **Uva Ursi and Nettles:** Uva ursi (also known as bearberry extract) contains compounds that may help maintain the urinary tract's natural defense against bacteria.* It has been approved by the German Commission E, a highly revered scientific advisory board, to support a healthy inflammatory response in the urethra (the duct that carries urine from the bladder out of the body).* Uva ursi and nettles both have a mild natural diuretic effect, helping to flush out the kidneys and maintain a healthy microbial environment.*
- **Horsetail Extract:** shown to help support the body's natural defense against bacteria and other organisms.* In addition, it helps promote a healthy inflammatory response in the lower urinary tract and offers mild diuretic effects.*
- **Parsley:** this well-known botanical is a species of a flowering plant in the family *Apiaceae* that is native to the Mediterranean. It offers benefits to urinary health by acting as a mild natural diuretic, as well as helping maintain a normal microbial environment in the urinary tract and supporting a healthy inflammatory response.*
- **Aloe Vera:** widely known for its soothing properties, aloe is a popular succulent that helps soothe the lining of the urinary tract; it also offers antioxidant properties due to its array of health-supportive constituents.*
- **D-Mannose:** a type of sugar found in many fruits and vegetables; it is one of the active components in cranberry, which is one of the most time-tested natural plants for supporting urinary health.*
- **Vitamin B6:** Pyridoxal-5-phosphate is the active form of vitamin B6; it helps provide a mild diuretic effect, working in synergy with the array of botanicals and nutraceuticals in this product.

May help support:*

- Optimal urinary health
- A healthy microbial environment in the urinary tract
- A healthy inflammatory response in the urinary tract
- A mild diuretic response

Recommended Use: Take two capsules per day, or as directed by your health care practitioner.

Consult with your healthcare practitioner about your specific circumstances and any questions you may have.
