

Resveratrol VESIsorb®

Self-assembling nano-colloid system; enhanced absorption resveratrol for cardiovascular, cognitive and cellular health[†]

INDICATIONS

- Ages 18 and up
- Cardiovascular and cellular health support[†]
- Metabolic function support[†]

BENEFITS

- Supports cellular and cardiovascular health[†]
- Promotes enhanced absorption
- Helps support neurocognitive health as well as antioxidant defenses[†]

FEATURES

- Contains highly pure 99% trans-resveratrol resVida®
- Resveratrol VESIsorb® is designed to help enhance resveratrol absorption
- Made with high-quality vegetarian ingredients backed by verifiable science

VERIFIABLE SCIENCE

Research suggests resveratrol offers support for cellular function,¹ cardiovascular and neurocognitive health,² metabolic function and antioxidant defenses. In a 30-day, randomized double-blind crossover trial, 150 mg resVida® resveratrol supported a variety of cardiometabolic health markers. Resveratrol promoted AMPK activity and SIRT1 and PGC-1 α protein levels, biomarkers that positively correlate with metabolic health and mitochondrial function. Resveratrol also promoted healthy blood flow, adipose tissue lipolysis and hepatic lipid content.³ In a dissolution study, resveratrol with the VESIsorb® delivery system demonstrated 100% dissolution, the ability to dissolve readily in an aqueous environment for absorption, compared to less than 1% for powder.[†]

SUGGESTED USE

As a dietary supplement, take 2 Caplique® Capsules daily, with or between meals.

STORAGE

Store in a cool, dry place.

WARNING

If you are pregnant or lactating, have any health condition or are taking any medication, consult your health professional before use.

SOURCE

- ResVida® resveratrol is synthetic

NOTES

Size 0 Caplique® Capsules

Bottle count 90

Order code RSV9

Bottle size 190 cc
